#### (a) Revenue

Grant revenue is recognised in the statement of comprehensive income when the entity obtains control of the grant and it is probable that the economic benefits gained from the grant will flow to the entity and the amount of the grant can be measured reliably.

If conditions are attached to the grant which must be satisfied before it is eligible to receive the contribution, the recognition of the grant as revenue will be deferred until those conditions are satisfied.

Revenue from camping is recognised upon use of campsite by patrons.

Revenue from gaming is derived from poker machines and is recognised 'net' of payouts to players.

Revenue from bar sales is recognised when beverage is acquired by patrons.

Revenue from canteen sales is recognised when food is acquired by patrons.

Revenue from raffles is derived from ticket sales and is recognised in the period the raffle is drawn.

Sponsorship revenue is recognised upon invoice to the sponsor; this amount is determined in accordance with the amount pledged and the timing with which the agreed pledge will flow to the Company.

Revenue from members subscriptions is aligned with the period the members utilise the facilities provided and paid for. Those received in advance for future years are deferred until those timeframes are reached and are recognised, in the meanwhile, as a liability in the statement of financial position.

Revenue from competition and green fees are recognised when the golf course is used by playing patrons for such purposes. The receipt of fees and playing of golf usually occurs in the same timeframe.

Donations and bequests are recognised as revenue when received.

All revenue is stated net of the amount of goods and services tax.

#### (b) Property, Plant and Equipment

The entity applies the cost model as its accounting policy to property, plant and equipment.

#### **Freehold Property**

Freehold land is shown at cost.

Buildings are shown at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of buildings is greater than its estimated recoverable amount, the carrying amount is written down immediately to its estimated recoverable amount and impairment losses recognised in profit and loss.

## **Plant and Equipment**

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised in profit or loss. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1(d) for details of impairment).

Plant and equipment that have been contributed at no cost, or for nominal cost, are valued and recognised at the fair value of the asset at the date it is acquired.

#### Depreciation

The depreciable amount of all fixed assets, including buildings and capitalised lease assets but excluding freehold land, is depreciated on a straight-line basis over the asset's useful life to the entity commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Buildings	2.5 - 5%
Plant and equipment	6 - 50%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss in the period in which they arise.

#### (c) Financial Instruments

#### Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is the date that the entity commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified as "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss.

## **Classification and subsequent measurement**

Financial instruments are subsequently measured at fair value or amortised cost using the effective interest method.

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

(ii) Financial liabilities

Non-derivative financial liabilities other than financial guarantees are subsequently measured at amortised cost.

#### Impairment

At the end of each reporting period, the company assesses whether there is objective evidence that a financial asset has been impaired.

#### Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised when the related obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability, which is extinguished or transferred to another party, and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

## (d) Impairment of Assets

At the end of each reporting period, the entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, is compared to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised in profit or loss.

## (e) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at-call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

#### (f) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST receivable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

## (g) Income Tax

No provision for income tax has been raised as the entity is exempt from income tax under Div 50 of the *Income Tax* Assessment Act 1997.

#### (h) Comparative Figures

When required by Accounting Standards comparative figures have been adjusted to conform to changes in presentation for the current financial year.

#### (i) Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the entity during the reporting period that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

## (j) Critical Accounting Estimates and Judgements

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the company.

#### Key estimates

There were no significant key estimates undertaken in this financial year.

#### Key judgements

Depreciation

Assessments are made on the useful lives of fixed assets. Depreciation rates are set accordingly.

#### (k) Economic Dependence

Mullumbimby Rugby League Football Club Limited is dependent on the members and camping patrons for the majority of its revenue used to operate the business. At the date of this report the Board of Directors has no reason to believe the members and camping patrons will not continue to support Mullumbimby Rugby League Football Club Limited.
